"DIFFERENT WORLDS"

There are different small worlds in this big world.

Different people, different thoughts, different visions, different goals, and so many more different things. The 'different' is not as a 'comparison'. 'Different is a 'diversion'.

We all are the same in this world. The same but different. This makes us each unique and special. In this show you can see the differences between the two artists; different subjects, different styles, and different mediums.

Girija works with natural elements and watercolours. Her works are based on the real world. James is fantasy and scientific based with lines, shapes, and digital colouring. All these differences are very apparent, but the common factor between them is "diversity".

We invite you to join us to celebrate the opening of this exhibition, and enjoy "DIFFERENT WORLDS" with Girija and James.

ABOUT THE ARTIST

GIRIJA KULKARNI

“I as a visual artist seek the medium of painting to express myself, honestly this is the better way for me to express”! Colours are my comfort zone, Colour palette, brushes, painting mediums, variety of surfaces to paint on... you can go on. I believe it's the ability to reincarnate the mind through artistic expression gives rise to an Art Form. In simple words, “I am an Artist”.

“I am not running to reach anywhere, enjoying the process of learning new things in the journey of art. Constantly searching the new mediums to express my thoughts through my art. I love the pain of creation; the process of an idea is taking shape, many times knowing the end result but sometimes without knowing the end result! And feel that restlessness to reach that point of the end result! You are welcome to join me on this creative path, as this journey is endless!

ABOUT THE ARTIST

JAMES MATHURIN

Born in 1979 in London, James Mathurin works in a mixture of mediums: traditional pen and ink line work, digital drawing and colouring, photography and various combinations thereof.

Having been influenced by comics and nerd culture, the Surrealist, Pre-Raphaelite and Dada movements, James' work uses fantastic narratives to look forwards, backwards and sideways in time. After getting his BA in Visual Communication Design from Middlesex University, James did some freelance advertising work, and after moving to Sydney, he started exhibiting with the Sydney Comic Guild and other groups.
